

STUDENT'S EVALUATION OF RELATE LEARNING EXPERIENCE
LEVEL II

Name: _____ Section: _____ Average: _____
Clinical Area: _____ Shift: _____ Date: From _____ to _____

Numerical Rating	Quantitative	Descriptive
5	Outstanding	Consistently performs above expected level; Independent
4	Exceeds standards	Performs above expected level; Usually independent
3	Meets standards	Performs at expected level with minimal supervision
2	Does not meet standards	Performs at expected level with continuous supervision only
1	Unsafe/ Unsatisfactory	Unable to perform at expected level even with supervision

ABILITIES	RATING OBTAINED	
	SE	CP's E
I. PROFESSIONAL NURSING COMPETENCIES (50%)		
1. Assessment		
1.1 Collects pertinent data, through observation, interview techniques and other appropriate methods.	_____	_____
1.2 Performs pertinent functions in physical examination and other diagnostic test.	_____	_____
1.3 Collaborates with other team members.	_____	_____
1.4 Assess learning needs of the patient and family.	_____	_____
2. Diagnosis		
2.1 Organizes, clusters or groups data.	_____	_____
2.2 Compares data against standards.	_____	_____
2.3 Analyzes data after comparing with standards.	_____	_____
2.4 Determines the patient's health problems, health risks, and strengths.	_____	_____
2.5 Formulates correct nursing diagnosis.	_____	_____
3. Planning		
3.1 Sets priorities in nursing care based on patient's needs.	_____	_____
3.2 Formulates objectives based on SMART principles.	_____	_____
