**SUMMARY PERFORMANCE EVALUATION ACHIEVING  
INTRA-OPERATIVE CARE COMPETENCY**

*In accordance with PRC Board of Nursing Memorandum No.01 Series 2009*

**Signature over Printed Name of Student:** \_\_\_\_\_

| INTRA-OPERATIVE CARE COMPETENCIES   | DESIRED RATING | 1 <sup>ST</sup> RLE | 2 <sup>ND</sup> RLE | 3 <sup>RD</sup> RLE | AVE. RATING |
|---|----------------|---------------------|---------------------|---------------------|-------------|
| <b>I. SAFE AND QUALITY NURSING CARE (SQC)</b>   |                |                     |                     |                     |             |
| 1. Utilizes the nursing process in the care of OR client  | 4              |                     |                     |                     |             |
| a. Obtains comprehensive client's information by checking complete accomplishment of the preoperative checklist / client. |                |                     |                     |                     |             |
| b. Identifies priority needs at the Operating Room.   | 4              |                     |                     |                     |             |
| c. Provides needed nursing intervention based on identified needs.  | 4              |                     |                     |                     |             |
| d. Monitors client's response to surgery.   | 2              |                     |                     |                     |             |
| 2. Promotes safety and comfort of patients inside the OR.   | 2              |                     |                     |                     |             |
| 3. Performs the functions of the scrub nurse  | 4              |                     |                     |                     |             |
| a. Performs surgical scrub correctly  |                |                     |                     |                     |             |
| b. Wears sterile gowns & gloves aseptically   | 2              |                     |                     |                     |             |
| c. Prepares surgical instruments, sponges, sutures and other supplies in functional arrangement                           | 2              |                     |                     |                     |             |
| d. Hands instruments, sponges, sutures and other needed materials according to surgeon's preference                       | 2              |                     |                     |                     |             |
| e. Performs surgical count accurately   | 2              |                     |                     |                     |             |
| 4. Performs the functions of the circulating nurse  | 2              |                     |                     |                     |             |
| a. Anticipates the needs of the surgical team   |                |                     |                     |                     |             |
| b. Sets up the OR room and needed equipment   | 2              |                     |                     |                     |             |
| c. Received patient for surgery/ endorses patient post-operatively  | 2              |                     |                     |                     |             |
| d. Assists in skin preparation and draping of clients   | 2              |                     |                     |                     |             |
| 5. Administer medications and other therapeutics safely.  | 2              |                     |                     |                     |             |
| <b>II. MANAGEMENT OF RESOURCES AND ENVIRONMENT (MRE)</b>  |                |                     |                     |                     |             |
| 1. Organizes work load to facilitate timely patient care.   | 4              |                     |                     |                     |             |
| 2. Utilizes adequate and appropriate resources to support the OR team.  | 2              |                     |                     |                     |             |
| 3. Ensures functionality of OR resources.   | 2              |                     |                     |                     |             |
| 4. Maintains a safe environment at the OR by observing the principles of asepsis.   | 2              |                     |                     |                     |             |
| <b>III. HEALTH EDUCATION (HE)</b>   |                |                     |                     |                     |             |
| 1. Implements appropriate health education activities to client based on needs assessment.                                | 2              |                     |                     |                     |             |
| <b>IV. LEGAL RESPONSIBILITIES (LR)</b>  |                |                     |                     |                     |             |
| 1. Adheres to legal and institutional protocols regarding informed consent  | 2              |                     |                     |                     |             |
| <b>V. ETHICO-MORAL RESPONSIBILITIES (EMR)</b>   |                |                     |                     |                     |             |
| 1. Respects the right of the OR client  | 2              |                     |                     |                     |             |
| 2. Accepts the responsibility and accountability for own decision and actions as an OR nurse                              | 2              |                     |                     |                     |             |

|  |           |  |  |  |  |
|--|-----------|--|--|--|--|
| <b>VI. PERSONAL AND PROFESSIONAL DEVELOPMENT (PPD)</b>   |           |  |  |  |  |
| 1. Performs OR functions according to professional standards.  | 4         |  |  |  |  |
| 2. Possesses positive attitude towards learning surgical and OR-related knowledge and skills.                                    | 2         |  |  |  |  |
| <b>VII. QUALITY IMPROVEMENT (QI)</b>   |           |  |  |  |  |
| 1. Participates in quality improvement activities related to infection control and successful OR operations.                     | 2         |  |  |  |  |
| 2. Identifies and reports variances in sterility and other OR activities.  | 2         |  |  |  |  |
| <b>VIII. RESEARCH (R)</b>  |           |  |  |  |  |
| 1. Disseminates results of OR-related research findings to clinical group and other members of the OR team as appropriate.       | 2         |  |  |  |  |
| <b>IX. COMMUNICATION (Comm)</b>  |           |  |  |  |  |
| 1. Establishes rapport with patients, significant others and members of the health team.   | 1         |  |  |  |  |
| 2. Used appropriate information mechanisms to facilitate communication inside the OR and with other departments in the hospital. | 2         |  |  |  |  |
| <b>XI. COLLABORATION AND TEAMWORK (CTM)</b>  |           |  |  |  |  |
| 1. Collaborates plan of care with other members of the health team.  | 2         |  |  |  |  |
| <b>TOTAL SCORE</b>   | <b>75</b> |  |  |  |  |
